

TI:ME Technology Institute for Music Educators <http://www.ti-me.org/>

The Technology Institute for Music Educators (TI:ME) is a non-profit corporation registered in the State of Pennsylvania whose mission is to assist music educators in applying technology to improve teaching and learning in music.

Kelly's Music and Computers

<http://kellysmusicandcomputers.com/education.htm> although a commercial site, there is a great deal of information on "Using Technology in Education" with multiple topics covered by the authors. Linked to TeacherVision site and approved by MENC.

Tanglewood II Declaration <http://www.bu.edu/tanglewoodtwo/declaration/declaration.html>

http://www.bu.edu/tanglewoodtwo/declaration/declaration_vision.html#vision1

In June of 2007, an international group of distinguished music educators, performers, researchers and scholars from a variety of fields assembled to examine the issues posed by these enormous changes. This symposium, Tanglewood II—Charting the Future, was conducted in the spirit of the groundbreaking Tanglewood Symposium of 1967, but was decidedly and substantially of the 21st century. The Tanglewood II Symposium sought to examine the challenges that these changes and conditions pose to the practice and instruction of music.

The principles articulated in this declaration, reflecting a consensus of the symposium members, are intended to stimulate dialogue at all levels of society and assist in the process of charting a new, dynamic and challenging path for music in the 21st century. Although some of these statements are perennial, they must take on new understandings and serve as a clarion call for radical change.
